

Tasks

- Sensor unit: (Arduino 1)
 - Task 1: Sensor data read.
 - Sub Task A: GPS read.
 - Sub Task B: Accelerometer read.
 - Task 2: Accident detection.
 - Task 3: Mqtt connect.
 - Task 4: Sensor data Publish to mqtt broker.
- Control unit: (RPi)
 - Task 1: Create mqtt broker.
 - Task 2: Create Topics.
 - Task 3: Create web server and serve information.
- Actuator unit: (Arduino 2)
 - Task 1: mqtt connect and subscribe.
 - Task 2: Actuator activation logic.
 -
